PROFESSIONAL SUMMARY

MERN Stack Developer with 3+ years of hands-on experience building scalable full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Strong proficiency in JavaScript (ES6+), TypeScript, HTML5, and CSS3, with proven experience building responsive UIs in React.js, Redux, and Tailwind CSS and designing RESTful APIs backed by optimized MongoDB. Skilled in Git, JWT/OAuth authentication, and third-party API integration, with working experience across Docker, CI/CD, and cloud (AWS). Comfortable in Agile teams collaborating with PMs, designers, and engineers, and known for writing clean, reusable, well-reviewed code.

TECHNICAL SKILLS

- Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
- Frontend:** React.js, Next.js 14 (App Router, Server Components, Server Actions), Redux Toolkit, RTK Query, TanStack Query v5, Zustand, Context API, SWR, React Hook Form, Zod
- Backend:** Node.js, Express.js, RESTful API design, third-party API integration, GraphQL (Apollo), Socket.IO, JWT, NextAuth v5, OAuth 2.0
- Databases:** MongoDB, Mongoose, PostgreSQL, MySQL, DynamoDB
- Cloud & DevOps:** AWS (EC2, S3, deployment), Docker, CI/CD (GitHub Actions), Git, GitHub, Bitbucket, Husky, Vercel
- UI Frameworks:** Tailwind CSS, ShadCN, Material UI (MUI), Chakra UI, Ant Design, Bootstrap
- Testing:** Cypress (E2E), Jest, React Testing Library, Lighthouse
- Practices:** Agile / Scrum, Full-Stack Architecture, SSR / ISR / CSR, Code Splitting, WCAG Accessibility, BFF Proxy Pattern

PROFESSIONAL EXPERIENCE

- Slick Networks, Inc.** — MERN Stack Developer (React / Next.js) Feb 2025 – Present
SaaS eSIM and mobile recharge platform — Next.js 14, TypeScript, Tailwind CSS, REST API · Lahore, Pakistan (On-site)
- Architected a Transaction History module supporting two backend data shapes (Telinta CDR and ASTPP) with tab filtering and complete TypeScript type coverage from API to UI.
 - Integrated the MoneyHash SDK for end-to-end payment processing — 3DS modal handling, guest intent flow, and a two-intent checkout architecture via RESTful and third-party API integration.
 - Built Cypress E2E test suites covering slow-API timing, reCAPTCHA bypass, and OTP inputs, enforced through pre-push Git hooks (Husky) in the CI/CD pipeline.
 - Integrated NextAuth v5 for session management via HttpOnly cookies using a BFF proxy pattern, keeping API credentials fully server-side.
- Nextgen Property** — MERN Stack Developer Sep 2024 – Jul 2025
US-based property listing & management platform — React + Node.js/Express · United States (Remote, Contract)
- Built Node.js/Express microservices for property listing data APIs and integrated them into the React frontend via Axios, working alongside a Laravel backend team.
 - Built a shared React.js + Tailwind CSS component library used across feature teams, reducing UI inconsistency by ~25%.
 - Set up and maintained CI/CD pipelines using GitHub Actions for automated builds, linting, and deployments.
 - Improved accessibility (WCAG 2.1) and on-page SEO across key pages; enforced clean code standards through regular code reviews.
- Simplexmed (Obsidian)** — Senior Frontend Developer (React / Node.js) Jan 2022 – Feb 2025
Healthcare SaaS platform (ObsidianPM) — React + Node.js + MongoDB · Abbottabad, Pakistan (On-site)
- Improved ObsidianPM's overall performance by 30% using code splitting, lazy loading, memoization, and render optimization.
 - Implemented backend RESTful APIs using Node.js, Express, and MongoDB and integrated them into the React frontend via Axios.
 - Built a real-time bidirectional chat system using Node.js, Express, Socket.IO, and MongoDB serving clinical teams with instant in-app messaging.

- Used GraphQL (Apollo) for inter-service communication, reducing API fetch time by 14%; led code reviews across a team of 4 developers.

Stemwizard Academia — Senior Frontend Developer

Nov 2023 – Sep 2024

EdTech SaaS platform — React.js, Next.js, Node.js + MongoDB, Python FastAPI · Abbottabad, Pakistan (Part-time)

- Cut page load time by up to 45% through bundle optimization, image compression, and SSR/ISR strategies in Next.js.
- Built Node.js backend services integrated with a Python FastAPI data layer for large-scale academic datasets.
- Implemented role-based authentication and protected routes using React, Redux, and JWT.

Viral Webbs — Frontend Developer

Sep 2021 – Dec 2021

Web agency — React.js projects, API integrations, CI/CD · Islamabad, Pakistan (On-site)

- Built responsive React.js applications with JWT/OAuth authentication and RESTful API integrations.
- Wrote unit and integration tests (Jest, React Testing Library) and set up CI/CD pipelines via GitHub Actions.
- Deployed applications on AWS and optimized rendering with lazy loading and code splitting.

PERSONAL PROJECTS (FULL-STACK & AI)

- **Real-Time Chat App** — *MongoDB, Express, React, Node.js, Socket.IO, JWT*. Full-stack MERN chat with one-to-one and group messaging, JWT auth, and message persistence.
- **DocQuiz AI** — *Next.js 14, TypeScript, OpenAI API, Tailwind CSS*. Web app that turns uploaded PDF/DOCX files into auto-generated multiple-choice quizzes using GPT-4.
- **Quizly** — *React Native (Expo), TypeScript, OpenAI (Whisper + GPT-4)*. Voice-based English practice app giving real-time AI feedback on grammar, fluency, and vocabulary.

EDUCATION

Bachelor of Science in Software Engineering — Islamia University of Peshawar · 2021
